Gates, The Hon. Thomas: Secretary of the Navy and later Secretary of Defense, 157-158

General Electric Co.: 48

Gleason, Miss Louise: future Mrs. Withington, 23; comments on marriage in 1926, 23

Guam: assault on island led by Admiral Conolly, 78

Hanafee, Comdr. Frank Joseph: 55

Hayward, VADM John T. (Chick): incident during flight with
Admiral Sherman, 135

Hewitt, ADM Kent: 35-36

Hill, Admiral Harry: 65 ff; Withington becomes his chief of
staff, 65; headquarters ship the CAMBRIA, 66; description
of Admiral Hill, 67; Pacific reputation made with Eniwetok
campaign, 70-71; uses serves of Squeaky Anderson as
beachmaster, 71; sends Withington home on mission to
Washington, 71; engages in preparations for Saipan, 72-73;
President of National War College, 100, 103, 105

Hill, VADM Thomas B.: heads office of Naval Atomic Energy, 109-
110

Hiroshima, Japan: visit to hospital there, 193; hostility
towards U. S. in the city, 194

Hooper, VADM Edwin B.: 135; heads research division in BuOrd,
136

Hoover, The Hon. Herbert - former President of U. S.: delivers
lecture at National War College, 103

Hussey, VADM George: 80, 82-83

USS INDIANA, BB: 22, 25; Capt. Merrill as skipper, 56; problems
of shakedown cruise, 57; armament, 57-58; radar equipment,
58; damage control, 59; spare parts, 59; complement, 60;
in South Pacific, WW II, 61-63; operation off Gilbert
Islands, 64; Withington detached to become Chief of Staff
to Adm. Harry Hill, 65; Capt. Fechteler also detached same
date, 65

Industrial War College: 103-104

Intelligence: value of for island hopping, 69-70

Inyokern: Naval Ordnance Test Center (NOTS) at China Lake, 138-139, 142; 145; Withington in 1961 becomes member of Advisory Board, 200; 201

Ise Shrine: personifies Japan's cultural debt to China, 190

Iwakuni, Japan: American Air Base, 179; intelligence missions flown from over Sea of Japan, 181

Japanese Naval development: remarks on progress made by Japanese in decade of 1930s, 36-37; comments on U. S. progress in same period, 36-37; 38

Japanese People: demonstrations against U. S., 185; their enterprise, 186; standard of living, 187; constitutional prohibition against military forces, 188; birth control, 196; fear of Russians, 196-197

Japanese Propaganda: 72-73

Johns Hopkins University: operates Applied Physics Lab at Silver Spring, 146; 148-149

JUPITER Missile: Army project, 154

King, Fleet Admiral E. J.: 47, 55

Kwajalein: amphibious landing on, 67-68

Korean Naval Academy: visit at time of graduation, 190

Korean War: 123-124

Lauritson, Dr. Charles: Professor at CalTech, develops air-to-air rocket, 145; member of Board of Advisors at NOTS, 146

Lee, VADM Willis A., Jr.: 95

Lockheed Mfg. Co.: 157-158, 169

Long Beach, Calif. earthquake: 34

LUCKY BAG: 2, 8-9

MacArthur, The Hon. Douglas, III, U. S. Ambassador to Japan:
180; difficulties with Japanese demonstrators, 184-185

Majuro: amphibious landing: on, 67

USS MANCHESTER, CL: Withington in command for period of
Mediterranean cruise, 1948, 97

MANHATTAN Project: 159

Mark I Rangekeeper: early fire control computer, 162-163

USS MARYLAND, BB: used for bombardment in Pacific, 64-65

USS MASSACHUSETTS, BB: failure of 16-inch shells to explode, 63

McNamara, The Hon. Robert: Secretary of Defense, 140, 142;
comments on fixed price-contract basis, 170

Merrill, VADM A. S.: 56-57

Military Liaison Committee: connecting link between AEC and
military, 107

USS MISSISSIPPI, BB: United of OpDevFor, Withington in command,
92; complement, 96-97

Montgomery, Capt. Robert, USNR: 61

Nagasaki, Japan: launching ceremony for U. S. financed destroyer
- AKIZUKE - with Mrs. Withington as sponsor, 192-193; lack
of hostility among people, 194

National War College: Withington named to class of 1949;
discussion of lectures, courses, etc., 100-105

Naval Academy Experiences: 4-5, 7-11; aviation requirements, 12;

comments on curriculum and teaching methods, 13-14; discipline, 14-16

Naval Atomic Energy Office: 106-119; Withington to #2 job under Admiral Tom B. Hill, 106; takes orientation course at Sandia, 106; 1951 succeeds Adm. Hill, 109; immediate concerns, 109; general comments on weapons testing, 111-112; efforts to develop breeder reactor, 112; missile warheads, 113; discussion of raw material sources, 114-115; reasons for lessening security in atomic matters, 115-116; extent of knowledge about nuclear matters in navy, 117; Withington attempts to teach brief course on atomic energy for benefit of naval officers, 117; Eniwetok tests, 118; naval unit at Kirkland Field, 135

NOL (Naval Ordnance Laboratory): Adm. Hussey assigned Withington as Director - Oct. 1945, 82; scope of assignment, 83; personnel, 85; acquires Kochel wind tunnel from Germany, 86; German scientists, 87-88; comments on employment of scientists in government work, 88-91; experience aids him in development of rapport with scientific and engineering

men, 167

Naval Ordnance Test Center (NOTS) – see Inyokern

Naval Propellant Plant, Indian Head, Md.: Withington
becomes member of Advisory Board, 200-201

Navy Relief Society: 204; Withington a member of Board of
Managers, 204; Society loans two million for
construction of Vinson Hall, 205

Naval Research Advisory Council: Withington member of Advisory
Committee, 200

Naval Research Laboratory: beginnings of the Lab, 45

Naval Research Office: cooperation with BuOrd, 166-167

NAVAL REVIEW: edition of May, 1970 with account of POLARIS
program, 151

Naval Secrets: comments on stultifying measures, 41-42

NTDS (Naval Tactical Data System): 163

Naval War College: turns attention in 1930s to possible conflict
with Japan, 40; Withington assigned for special course
after amphibious command in Pacific, 130

Naval Weapons Lab at Dahlgren, Va.: Withington becomes member of
advisory council, 200-201

NEVADA, BB: 21, 30, 34

Nimitz, Fleet Admiral C. W.: minute awareness of battle actions
on Saipan and Tinian, 79

Nomura, Admiral Kichisaburo (Japanese): 124-125; 195

Norden Bomb Sight: 42

Norris, John G.: Reporter on Washington Post for scientific

matters, 174; article on retirement speech of Withington, 174-175; 176

USCG NORTHWIND: icebreaker, on DEW line expedition, 122; comment on Russian ice breakers, 123

NOTS: see Inyokern

Noumea: base for BB INDIANA in South Pacific, 62-63

Okinawa: U. S. naval facilities on island, 191; problem of Marines training in Japan, on slopes of Fujiyama, 191

QpDevFor: 54; testing of 5-inch batteries in fleet, 93; use of old battleships for conducting tests, 94; scope of interests of this program, 94; origins of concept, 94

Oppenheimer, Dr. Robert: 90, 110; 128-129; 131

Panama Canal: war games include surprise air attack on Canal, 32

Parry Island: third in Eniwetok group to be occupied by U. S. Forces, 69

Parsons, RADM Wm. S. (Deke): death of (Dec. 1953) results in Adm. Withington being assigned as Deputy Chief of BuOrd, 130-131; his support of Sidewinder missile, 138-140

Pearl Harbor Naval Base: state of things before WW II, 39-40; amphibious exercise off Oahu, 41

Philco Corporation: 143

USS PITTSBURGH, on European Station: 22

Point Barrow, Alaska: 120

POLARIS: missile test, 129; 151-160; non-secret nature of program contrasted with MANHATTAN project, 159; 170-171

Post Graduate School: 26; visits to Ordnance Installations, 26;

comments on P.S. course, today, 28; Withington serves on
visiting committee for Monterey P.G. school in 1966, 201
Pride, Admiral Mel: Chief of BuAir, 201; concern with naval
training in all its aspects, 203
Pye, VADM Wm. S.: skipper of BB NEVADA, 30
Queen's Birthday Reception., Tokyo, Japan: 184-185
Raborn, VADM Wm. F., Jr.: 154-158; 170
Radar: comments on pre-World War II radar, 46
REGULUS I and II: first of missiles to be developed, 149-150
Reserve Officers: comments on in World War II, 60-61;
material specialists and reservists vs line officers, 53-55
Rhee, President Syngman of Korea: 191
Rickover, VADM. Hyman George: 109-110, 152
Rivero, Admiral Horacio, Jr.: number 2 in fire control section
of BuOrd, 46
Roosevelt, President F. D.: dispute with Admiral Taussig, 35-36
Ruddock, VADM Theodore Davis, Jr.: gunnery officer in BB NEVADA,
30
Ryan, RADM Thomas John, Jr.: recommends Withington to Admiral
Hill, 66-67
Saipan: preparation for campaign made in Hawaii, 72-75;
explosion on LST at Pearl Harbor limits amount of artillery
available for operation 74-75; summary of action, 74-75;
attitude of civilians and military towards possible
capture, 75-76; conflict between services - removal of Gen.
Smith, 76; comments on Spruance efforts to protect onshore

marines from Japanese fleet units, 78-79

135

Sasebo, Japan: 179; repair facilities for the 7th fleet, 183

Schuyler, RADM Garret L.: first EDO, 37-38; 44

Scott, The Hon. Hugh, U. S. Senator (Captain USNR): 1960
training duty with 7th Fleet, 182; plane downed in bad
weather, 182-183

Sharp, ADM U. S. Grant: skipper of DD damaged in bombardment of
Noumea, 63

Sheppard, The Hon. Harry, Member of Congress: 49-50; 141

Sherman, Adm. Forrest: in command of 6th fleet, 1948, 97; CNO,
135

Shimoda: Black Ship Festival in commemoration of Admiral Perry's
visit, 180

Ships Characteristics Board: 160; process of designing ships by
committee, 160-161

Shoeffel, RADM M. F.: Chief of BuOrd, 133; 165

Sides, Adm. John Harold: missile czar in CNO before Adm. Raborn,
154

SIDEWINDER Missile: Adm. Parsons insists on development, 138-
140, 142; Withington concerned that two bids of equal
nature be submitted, 143-144; 145; BuAir accepts the
SIDEWINDER, 143; 146; 150

Sixth Fleet: mission in Mediterranean, 98; occasional trips to
Black Sea, 98-99; bases on Riviera, 99

Smith, Prof. C. Alphonso: 9

Smith, Gen. (Howling Mad) Holland: 77

Smoot, VADM Roland: 197

USS SOUTH DAKOTA, BB: 61

Spiderhole battle technique: employed by Japanese on Eniwetok,
69

Spruance, Adm. Raymond: dispatches force to take Eniwetok, 67-
68; removes Gen. Smith on Saipan, 76-77; comments in
approval of Spruance decision not to draw naval forces from
vicinity of Saipan while operation continued on land, 78-79

Strauss, RADM Lewis L.: served in BuOrd at outbreak of W.W. II,
46, 47, 110

Stroop, VADM Paul D.: succeeds Withington as Chief of BuOrd
(1958), 174; as first head of Naval Weapons, called on
Withington and Admiral Pride to review his actions, 201-202

STYX Missile System: present development of Russians, 149

Taiwan: visit to island, 197

TALOS Missile: developed under contract with Convair and Bendix,
147-148

Tarawa: 64-65

Taussig, VADM Joseph K.: Withington becomes his Flag Lieutenant,
34-35; remains a RADM because of earlier disagreement with
FDR, 35-36; 38

Teller, Dr. Edward: 90

Tinian: Adm. Hill placed in command of assault, 77; details, 78

Turner, Adm. R. Kelly: Commander of Saipan operation, 73; orders

Withington to prepare plan for administration of Saipan, 73-74; 78

Tuve, Dr. Merle Antony: 88, 146-147

Underwater Demolition Teams: comments on their effectiveness in Pacific campaign, 77

U. S. Naval Forces, Japan: Withington named Commander of, 1958-1961, 178 ff; functions temporarily as Commander, U. S. Naval Forces, Korea, 178; comments on Japanese protests against visit of President Eisenhower, 184-185; social functions as part of assignment; 198-199

Vinson, The Hon. Carl: Member of Congress, 50

Vinson-Trammell Act: 49
